MUST HAVE

Le sneakers *Plume* di Miu Miu uniscono ricercatezza ed eclettismo, e racchiudono l'essenza sperimentale, a tratti istintiva, di uno dei marchi più apprezzati del momento

DI CECILIA BROSCHI FOTO MATTIA IOTTI

Le sneakers ultraleggere duo-tone *Plume* di Miu Miu hanno un doppio logo - sia sulla linguetta, sia sul dietro - e sono realizzate in pelle scamosciata e nappa. La loro versatilità riflette in toto lo spirito indipendente e anticonformista voluto da Miuccia Prada nel concept del brand, che si traduce fin dal 1993 in un'attitudine seducente e ribelle, in bilico fra un'eleganza naïf, sofisticatamente ruvida, e un'anima controcorrente, a tratti spensierata.

FRANCIA – MIU MIU – BEHIND THE BLINDS – FALL/WINTER 2024

The women now get to survive the end. I think we're all growing; each new generation adapts the concept and keeps it going. I'm honoured to play even a small part in that.

As an actor, you only have so much control because you're showing up to tell someone else's version of a story. With my music, I get the chance to **tell** the story through my lens.

My favourite K-pop band Seventeen have taught me that no matter how famous you are, no matter what you do for a living, you just have to be kind to everybody.
