Front Row @ **Miu Miu** Resort 2019

Miu Miu's 2019 Resort show in Paris took place on Sunday (July 1), with many stars in the front row who saw the likes of Naomi Campbell and Chloe Sevigny walk the runway for the famed Italian fashion brand.

Lily Collins: Exploring the '60s once again, the actress worked a retro look which I'm sure many will love until they get to the eye makeup, but it just adds to the authenticity of the look for me.

Ana de Armas: There's a charming feel to the Spanish actress' Miu Miu floral dress thanks to its Peter Pan collar, trimmed with an elegant bow tie. Miu Miu loafers manage to ensure the look didn't feel too saccharine.

Jenna Coleman: Speaking of sugar, there was plenty of sweetness oozing from Jenna's Miu Miu frock. The British actress kept things demure with this high-necked dress, yet adds a touch of contemporary polish via her accessories.

Game Of Thrones star Maisie Williams films final scenes as she hints Arya Stark might be one of the LAST characters standing

By AMANDA CASHMORE FOR MAILONLINE PUBLISHED: 19:04 BST, 7 July 2018

She's part of the show which has fans gagging for clues as to what might happen next. And it looks as if Maisie Williams, 21, might have dropped a huge spoiler about the final season of HBO's **Game of Thrones**. The star posted a poignant picture of bloodied trainers on Saturday, saying goodbye to her character Arya Stark as she filmed the last scenes, with the hashtag '#lastwomanstanding' - hinting that Arya may be one of the last battling for the Iron Throne.

Drama: Maisie's character, Arya Stark, lost her father at the hands of despised King Joffrey, and her brother and mother during the dramatic 'Red Wedding' episode
