The Small and Mighty Prada Arqué Bag

The little bag to add to your fall and winter wardrobe. In Collaboration with Prada.

10

By [Megs Mahoney Dusil](#) • Sep 15, 2023

When it comes to the compact bag movement, Prada leads the charge. With updates and re-editions, the brand brought back the idea of a small yet functional bag that left the hefty and cumbersome massive bag movement behind. This may be my favorite offering however, one that dances the line between being sleek and modern yet timeless and feminine. This is the new Prada Arqué bag, which offers an updated interpretation of key elements from the House of Prada and its storied and recognizable aesthetic.

[Prada Arqué in White](#), [Wool and cashmere crew-neck sweater](#), [Padded cotton miniskirt](#), [Brushed Leather Pumps with Floral Appliqués](#)

[Prada Arqué in White](#), [Wool and cashmere crew-neck sweater](#), [Padded cotton miniskirt](#), [Brushed Leather Pumps with Floral Appliqués](#)

Freshly released for fall, the Prada Arqué bag is a small but mighty, attention-grabbing design. The first thing you'll notice is its crescent-like shape, but upon further inspection, you'll uncover the details and workmanship that went into the creation of this bag.

[Prada Arqué in White](#)

[Prada Arqué in White, Brushed Leather Pumps with Floral Appliqués](#)

One of the most notable design elements is the curved body, which is constructed from two pieces of leather shaped with wooden forms. Another really neat and innovative finish is the shoulder strap, which runs the entire length of the curved bottom. This seemingly simple detail feels quite special in person, and these are the types of finishes that translate the creative vision behind a bag. The end result is a geometric balance that is highly alluring.

[Prada Arqué in Black](#)

Usability and Functionality

One of the biggest qualms with smaller bags is the lack of functionality, but this is where the Arqué soars. Versatility comes into play with the style. Its dimensions allow ample room for storage. It easily fits an iPhone Max, along with a small wallet and a handful of other daily necessities. For many, a small bag is out of the picture if it doesn't carry a phone, but this bag passes the oversized phone test.

[Prada Arqué in Black](#)

Speaking of the shoulder straps, there are multiple options when it comes to carrying this bag. The little hobo features two adjustable and interchangeable handles, allowing the wearer to customize the strap-length and carry it in multiple ways.

The Rest of the Details

The Prada Arqué bag is crafted from soft calf leather and is available in three color options: [black](#), [cognac](#), and [white](#). A bonus colorway, [this beautiful taupe hue](#) (called “Travertino”), is an online exclusive and probably my favorite of the bunch (followed by cognac). While the leather is smooth and luxurious, it still holds its shape due to the innovative construction of the bag. On the inside, you will find a single open pocket and nappa leather lining.

As our wardrobes transition to fall and winter, this bag is a seamless staple that can complete any outfit. It can sit under your arm snugly or with a bit of space or become your crossbody daily carry. I find this bag to be the equivalent of the perfect cup of tea in my favorite mug

while reading a book in a quintessentially inviting bookstore. No matter how you choose to wear it, the Prada Arqué feels just right.

Avec son design moderne en forme de croissant, le nouveau modèle Prada allie praticité et silhouette tendance.

Chaque saison, Prada se réinvente pour nous proposer un nouvel objet de tous les désirs. Pour la rentrée 2023, la Maison ne fait pas défaut à sa réputation et lance Prada Arqué — un sac porté épaule tout en rondeur, moderne et polyvalent.

La silhouette sinieuse du sac hobo est pourvue d'une bandoulière ajustable et amovible en cuir, qui permet de le porter de différentes façons — à l'épaule ou en travers du corps. La forme distinctive du croissant est rehaussée par des détails et un travail sophistiqués : un corps en cuir de veau souple, une doublure en cuir nappa ainsi qu'une nervure contrastante qui vient souligner la précision géométrique et l'équilibre du modèle Arqué. On y retrouve évidemment les éléments clés de l'esthétique Prada avec son incontournable logo triangulaire en métal émaillé sur le devant.

READY, MATE?

Streng genommen ist dieser 42 Zentimeter große Lippenstift aus Terrakotta und Steinzeug des südafrikanischen Künstlers Keith Henning kein *Objet trouvé*. Aber wer hat schon behauptet, dass es sich überhaupt um einen Lippenstift handelt? Kunst liegt bekanntlich im Auge des Betrachters.

AMICA SPAZIALE

Moonlight

«Nelle città senza mare... chissà a chi si rivolge la gente per ritrovare il proprio equilibrio... forse alla Luna...» ha scritto Banana Yoshimoto. E si ispira nella forma al nostro satellite "Prada Arqué", la nuova it-bag della maison italiana. Materiali pregiati, in pelle di vitello fuori e completata da una fodera in nappa. Dallo stile essenziale e contemporaneo, come confermano le tre "rigorose" varianti colore: marrone, nero e bianco. La forma a mezzaluna, con le sue caratteristiche curvilinee, addolcisce il mood deciso, aggiungendo così la giusta dose di femminilità. L'assenza di "fronzoli" e decori è compensata (come da tradizione per questa casa di moda) dalla cura estremamente attenta di ogni dettaglio e dalla selezione di speciali lavorazioni. La tracolla, che ne percorre tutto il profilo, con manici regolabili, permette di indossare la

borsa a mano, in spalla a bandoliera. Non ruba la scena, ma è capace di entrare in sintonia con stili diversi. Può contenere tutto il necessario, senza essere né troppo grande, né troppo piccola. Si candida a essere la compagna ideale per look dalla colazione al tramonto. Una nuova amica.

ANGOLAZIONI ALTERNATIVE

Forma e sostanza

Un detto popolare afferma: «Chi nasce tondo non può morire quadrato». Eppure il marchio Swatch con la nuova collezione "What If" dimostra che il cambiamento è sempre possibile. Così mette da parte la sua iconica forma curvilinea del quadrante e presenta quattro modelli squadrati, nati dalla rivisitazione di un prototipo del 1982. La sfida non è solo nella forma, ma anche nella sostanza. Realizzati in Bioceramic, i modelli combinano polvere di ceramica con materiali di origine biologica. Lancette fosforescenti, una finestra con il calendario giorno-data e quattro proposte di colori completano la ventata di novità. INFO: SWATCH.COM

THE PRADA ARQUÉ BAG IS HERE

By Roisin Breen

The lineup of It-Bags for the 2023 winter season is swiftly filling up, with [Prada](#) being the latest to drop its must-have arm access amongst a flurry of designer delights since the return from the summer holidays.

The neat Arqué bag from the Italian maison is the perfect answer for all this winter's 'thing transportation' needs. A perfect crescent shape, reminiscent of a perfectly flakey croissant, or a menacing waning moon (I'll let you take your pick) it's the epitome of the [Prada](#) craftsmanship so expertly coined since its days early days as a leather goods boutique in the heart of Milan.

The construction pairs two pieces shaped with two wooden forms, while the shoulder strap runs the entire length of the curve, highlighting –along with the contrasting rib –the bag's geometric precision and balance. The whole form is a classic design, built to last in a timeless fashion in the finest quality calf and nappa leather.

Available in three color options –black, cognac and white –the [Prada](#) Arqué is accented by an enameled metal triangle logo on the front and stylish metal hardware with a gold finish. Available

at [Prada](#) boutiques worldwide as well as on www.prada.com

PRADA

Миучча Прада, по ее собственным словам, не любит погружаться в прошлое и ностальгировать. Поэтому даже самые классические модели в ее интерпретации выглядят как футуристичный привет из будущего. Остроносые лодочки на каблук kitten hill с украшением, напоминающим оригами, – безупречный пример того, как самая привычная обувь может преобразиться. Мы также рекомендуем избегать ретрореференсов при стайлинге и носить эти туфли с минималистичными платьями и прямыми пальто.
