PRADA

Co-designers Miuccia Prada and Raf Simons called their latest autumn collection an "exploration of the fundamentals of fashion." Hence the platonically perfect proportions of this lush suede car coat (£6,000): The lapels jut out at just the right angle, not too wide or slim; the hem ends precisely above the knee; the pockets are placed at the ideal height for warming your hands on a chilly December morning.

FRANCIA - BEHIND THE BLINDS - FALL WINTER 2023

Part of the fun of music is that it's like throwing paint on a canvas. I'm now in a position where I can step back and look at what's in front of me, so I can weave something cohesive and meaningful to who I am right now.

**LUCAS
LA COMODIDAD EN
BRAVO**

José Manuel López Reyes
periodista de cine y televisión

30 veces más pesada que el caballo humano, 5 minutos particulares flotan en el aire. Han llegado hasta Nueva York, llegando 53 millones gracias a las corrientes de aire que las han arrastrado desde los incendios forestales en Quebec. A Bravo le cuesta mantener los ojos abiertos porque se está de acá el día más confortable del año en Nueva York, se está en una sesión de fotos.

Entonces por su perfil en el sitio de Netflix, Emily en París, y por estar junto a estrellas como George Clooney y Julia Roberts, el actor francés Lucas Bravo habla sobre el tema que más le interesa: la confortación que ofrece.
